

2D Bag Cabinet

Enhance cleanroom hygiene, reduce risk of contamination, and make handling user-friendly. Made with your 2D bioprocess bag storage and handling in mind, our ALLpaQ 2D Bag Cabinet is fit-to-fill verified, and has built in spillage control.

Features & Benefits

- Universal compatibility with all 2D bioprocessing bag types
- Removable panels and spillage control
- Optimizes product uptime with no cleaning and fit-to-fill verification
- Lightweight, easy handling due to plastic properties
- Product is jet washable
- Rigid plastic components to prevent bacteria growth
- Units can be folded to save space in storage and in shipping
- Can replace individual panels as needed to increase cabinet lifespan
- The 2D Bag Cabinet can be recycled to be used in future products
