

2D Bag Trays

Optimize storage space and reduce risk of bacteria growth. Our ALLpaQ 2D Bag Tray can be used for a variety of your cell culture media and buffer solution storage and handling needs. For optimal use and enhanced transportation throughout your facility, try using in combination with our ALLpaQ Bag Tray Cabinets and Bag Tray Dolly's.

Features & Benefits

- Optimal storage and handling of your buffer solutions and cell culture media in 2D bioprocess bags
- Prevents bacteria growth with smooth, rigid plastic components to reduce risk of contamination
- Can store up to 50L bags in stackable trays to optimize space
- Lightweight plastic for easy handling with four side hand holes
- Spillage control and jet washable
