

Bag Tray Cabinet

Cleanroom optimized and customized to your needs. Our ALLpaQ bag can be used anywhere in your facility, but is ideal for cleanroom settings due to its contamination prevention features.

Features & Benefits

- Carries up to six 2D bioprocess bags, or around 300kg of bioprocessing fluids
- All components on the cabinet are made with a rigid, smooth plastic that reduces risk of contamination by preventing bacterial growth
- Can be customized depending on your specific needs
- Two swivel casters with locking feature, and two fixed casters for optimized movement
- All surfaces are exposed, leaving no spaces for hidden bacteria to grow
- Simplifies transportation of your 2D bioprocess bags
